**Subject:** Mining team member

Hi Michael,

I would be happy to be the ARU representative on the mining team. I was the mining inspector for CWA 402 and 404 in Alaska from 1990 to 1997. I worked on placer mine issues in general (over 200 mines in Alaska), the Fort Knox, AJ, Kensington, Donlin Creek, Greens Creek, Red Dog and a heap leach operation in western Alaska for which I don't recall the name. Currently I am working on the Pebble and Chitna mines.

I would also like to be on the GIS team. I have been using the KPB system for the past 8 years. I am currently working with R9 and the Las Vegas Lab to find the resources to develop a GIS based landscape analysis tool.
